

Process Manager Specification and Technical Data

PM03-400
R400
1/96

TDC 3000X Process Manager

Specification and Technical Data

TABLE OF CONTENTS	Page
Introduction	3
Universal Control Network	3
Network Interface Module	4
Functional Description	4
Functional Overview	4
Control Functions	5
I/O Functions	8
Alarm System Functions	11
Control Implementation	12
Control Performance	12
Security	13
Physical Characteristics	13
Card File Assemblies	14
Field Termination Assemblies	14
Power Systems	14
Options	15
Process Manager Module	
Redundancy	15
I/O Redundancy	15
Power System Redundancy	15
Battery Backup	15
Remote I/O	15
Standby Manual	16
Intrinsic Safety	16
User-Preference Options	16
Specifications	17
PM Environmental Conditions	17
PM Certifications	18
Manual/Auto Station	
Environmental Conditions	18
PM Standard Power Systems	19
PM AC-Only Power Systems	20
PMM Redundancy Option	21
I/O Link Extender (Remote I/O)	21
High Level Analog Input Processor	22
HLAI Proc. Redundancy Option	22
Low Level Analog Input Processor	23
LLAI Multiplexor Processor	25
Smart Transmitter Interface Proc.	28
Smart Transmitter Interface	
Processor Redundancy Option	28
Serial Device Int. (General Spec.)	29
Serial Device Int.-Toledo Weigh Cell	29
Serial Device Int.-M/A Station	30
Serial Device Int.-UDC 6000	31
Analog Output Processor/FTA	32
Analog Output Processor	
Redundancy Option	32
Digital Input Processor	33
Digital Output Processor	35
Pulse Input Processor/FTA	39
Model Numbers	40
