

C Series

Dual Rack-n-Pinion Pneumatic Valve Actuators

The Assured Automation C Series pneumatic actuators offer a simple and cost effective solution for your valve automation needs. For use on quarter turn (90°) ball valves, plug valves, dampers, and butterfly valves. The dual, opposed rack pistons have low friction bearings and guides that provide high-performance, long cycle-life, and fast response. These pistons can be inverted to reverse the rotation for fail open applications.

FEATURES

- High duty cycle life, up to 1,000,000 cycles
- Double acting and spring return models
- Direct mounting to valve:
DIN/ISO 5211, DIN 3337 (F03 to F16)
- NAMUR solenoid and limit switch mounting
- Diamond & square output drive on all units
- Dual stroke adjustment
- Corrosion resistant coating
- Visual position indicator (Open/Closed)

SIZES & TORQUE OUTPUT

Spring Return

16 sizes

F03 to F16

Torque: up to 37,164 lbf./in (with 120psi air)

Double Acting

17 sizes

F03 to F16

Torque: 115 to 115,254 lbf./in (with 120psi air)

TYPICAL APPLICATIONS

- Ball Valves
- Butterfly Valves
- Plug Valves

SPECIAL OPTIONS

- Stainless steel bodies
- Low and high temperature seals
- 180° and 3-position models
- [see page 11 for details](#)

ACCESSORIES [\(see page 12 for details\)](#)

- NAMUR solenoid valves
- Limit Switches
- Positioners
- Automatic Thermal Shutoff Devices

Visual Position Indicator
fits into NAMUR slot of pinion

NAMUR Accessory Mounting Pattern
for ease of switch or positioner mounting

High Precision Nickel Alloy Steel Pinion
is blow-out proof and conforms to
ISO 5211 and NAMUR standards

Stainless Steel 304 Fasteners
standard on all models

Die Cast Aluminum End Caps
with polyester powder coating

High Performance Pre-Loaded Spring Cartridges
provide greater safety and longer spring life

Independent Travel Stop Adjustment Bolts
provide +/- 5° at each end of travel (see page 2)

NAMUR Solenoid Valve Mounting Pad

Extruded Aluminum Body with hard anodized
finish and polished internal surfaces

C Series

Dual Rack-n-Pinion Pneumatic Valve Actuators

OPERATION:

Spring Return

Counter Clockwise (Air Stroke)

A ↑ ↓ B

Compressed air enters through port "A" and the pistons are forced outward. The racks attached to the pistons cause the pinion to rotate in a counter-clockwise direction. Port "B" must be allowed to vent air from the outer chambers.

Clockwise (Spring Stroke)

A ↓ ↑ B

When pressure is removed from port "A" and air is allowed to vent through the port, the springs drive the pistons inward, thus causing the pinion to rotate clockwise. Port "B" must allow air to be drawn in to the outer chambers.

Double Acting

Counter Clockwise

A ↑ ↓ B

Compressed air enters through port "A" and the pistons are forced outward. The racks attached to the pistons cause the pinion to rotate in a counter-clockwise direction. Port "B" must be allowed to vent air from the outer chambers.

Clockwise

A ↓ ↑ B

Compressed air enters through port "B" and the pistons are forced inward. The racks attached to the pistons cause the pinion to rotate in a clockwise direction. Port "A" must be allowed to vent air from the outer chambers.

DUAL STROKE ADJUSTMENT BOLTS:

End of Clockwise Stroke (0°)

(adjustable from -5° to 5°)

End of Counter Clockwise Stroke (90°)

(adjustable from -85° to 95°)

C Series

Dual Rack-n-Pinion Pneumatic Valve Actuators

CONSTRUCTION: Spring Return Actuators (double acting models simply have no springs) [sizes 40 to 270]*

Spring Sets

No.	Part	Qty	Material
1	Indicator Cap Screw	1	Plastic (SS optional)
2	Position Indicator	1	Plastic (ABS)
3	Pinion Snap Ring	1	SS 300 Series
4	Thrust Washer	1	SS 300 Series
5	Thrust Bearing	1	Polyoxymethylene (Delrin)
6	Body	1	Extruded Aluminum Alloy
7	Piston Guide	2	Polyoxymethylene (Delrin)

Red parts are included in seal repair kits.

*NBR is standard. Special soft seals can be ordered for high and low temperature applications - Call **1-800-899-0553**.

C Series

Dual Rack-n-Pinion Pneumatic Valve Actuators

TORQUE VALUES: Spring Return Actuators (lbf/in) [sizes 52 to 105]*

Rack-n-Pinion mechanics provide a constant conversion factor of linear force to rotational force throughout the entire travel of the stroke, however, due to the nature of spring force, both the air and spring strokes start with a higher torque which decreases in a linear fashion to a lower torque at the end of the stroke.

C Series

Dual Rack-n-Pinion Pneumatic Valve Actuators

TORQUE VALUES: Double Acting Actuators (lbf/in) [sizes 40 to 270]*

Rack-n-Pinion mechanics provide a constant conversion factor of linear force to rotational force throughout the entire travel of the stroke, and since there are no springs involved on double acting models, the force is constant throughout the stroke and equal in both directions.

**Weights shown are for double acting models. Spring return models will have the additional weight of the springs.

C Series

Dual Rack-n-Pinion Pneumatic Valve Actuators

DIMENSIONS: in inches [sizes 300 to 400]

Sizes 300, 350

Size 400

Size	A	B	C	D	E	V	U	Weight* (Spring Return)	Weight* (Double Acting)
300	29.2	12.8	14.9	2.36	1.811	6.496	-	287 lbs.	243 lbs.
350	33.9	15.0	17.0	2.36	1.811	6.496	-	517 lbs.	411 lbs.
400	36.4	20.3	19.4	2.36	2.165	6.496	M16	795 lbs.	637 lbs.

*Weights shown for spring return models include the weight of the maximum number of springs per size.

C Series

Dual Rack-n-Pinion Pneumatic Valve Actuators

SPECIAL OPTIONS AVAILABLE:

Stainless Steel Actuators

Dual Rack-n-pinion pneumatic actuators with stainless steel body, pinion, piston, and fasteners. Torque output up to 6500 lbf-in. for double acting and 3600 lbf-in. for spring return.

Call for details

180° and 3-position Actuators

These actuators are ideal for use on multi-port valves to provide the increased functionality using 3 positions to add achieve additional flow path possibilities using one valve.

Call for details

C Series

Dual Rack-n-Pinion Pneumatic Valve Actuators

ORDERING INFORMATION

CSR 160 - 12

Type Size Springs

Type: _____

CSR = Spring Return
CDA = Double Acting

Size: (see [torque](#) and [dimension](#) tables to select the proper size) _____

40	92	190	400
52	105	210	
63	125	270	
75	140	300	
83	160	350	

Larger sizes are available - [Call for Details](#)

Springs: _____

(omit) = No springs for Double Acting models
5 - 12 = number of springs in total (see [page 3](#) for spring arrangements and [pages 4 & 5](#) for torque values)

ACCESSORIES

NAMUR Solenoid Valves

Either 3-way for Spring return or 4-way for double acting. Each is available with various coils and connectors that are either NEMA 4/4X Weatherproof, NEMA 7 Explosion proof.

FireChek® Thermal Shutoff Valve

This revolutionary product turns any spring return pneumatic actuator into a thermally activated shutoff valve. Not only does it vent the actuator allowing for the springs to return the valve to fail-safe, it also shuts off the supply air which would feed oxygen to the fire. Sizes are available for ANY size actuator.
